## WHERE IS CAMARA?

### Much Doubt As to Present Location of Spanish Admiral

### SUPPOSED TO BE ON HIS WAY TO CERVERA'S RELIEF

New York, June 4—Special—A dispatch from Cape Haytien says the Spaniards have blown up the sunken Merrimac with dynamite.

Washington, June 4—Special—Government officials do not credit the report of the sailing of Camara's squadron, so long harbored at Cadiz. They do not think it is likely to get away for some time to come. Besides the fact that the vessels are insufficiently equipped and are in need of repairs that cannot be made at present for lack of money, there is a political reason for keeping them at Caniz. The country is on the verge of revolution, and the ships may be needed to defend the fortunes of the reigning dynasty. It is not known how soon the Carlists may rise in revolt. The party is strong enough to successfully cope with the small army remaining in Spain, but might find a hard row to hoe if confronted by Camara's fleet. Until there are assurances that there will be no domestic revolution the fleet will not sail far from the Spanish coast, no matter what the necessities of the dynasty may be in other parts of the world.

### Leave for Manila.

Washington, June 4—Special—The war department has received a dispatch from Gen. Merritt stating that five thousand troops will leave San Francisco for Manila Wednesday or Thursday of next week.

San Francisco, June 4—Special—The Monterey and Brutus are expected to leave for Manila this evening. All is in readiness for the start.

### The News Confirmed.

Washington, June 4—Special—It is reported that the president has received official dispatches from the fleet at Santiago confirming the sinking of the Merrimac in the harbor channel and of the capture of the entire crew by the Spanish. The dispatch says the Merrimac was purposely sunk by Sampson to prevent the escape of the Spanish ships to the open sea. The plan is approved by the officials in this city who look for decisive results within a very few days at farthest.

### Peace Talk.

Madrid, June 4—Special—The suggestion of the foreign press that Spain ought to seek an honorable peace is causing much comment. The populace is distinctly opposed to the scheme, but commercial interests are inclined to accept the mediation of disinterested powers.

### Cuban Dissensions.

Madrid, June 4—Special—Gen. Blanco telegraphs from Havana that in consequence of quarrels between the insurgent leaders Garcia and Gomez the belief is growing that the latter will lead his forces against the Americans.

### Only a Rumor.

Key West, June 4—Special—Vague information reached here that the Vizcaya had been disabled and captured at Santiago. It is said the Vizcaya attempted to leave the harbor and attack our fleet.

### Another Barrier Erected.

Washington, June 4—Special—An additional vessel has been sunk in Santiago harbor. The program is to completely choke the channel so that the Spanish will be safely bottled up.

### Has Left Cadiz.

London, June 4—Special—Camara's fleet, which has sailed from Cadiz for an unknown destination, is believed to be heading for the West Indies. The fleet is a powerful one.

### Sailed Under Sealed Orders.

New York, June 4—Special—A Mobile dispatch says several transports laden with troops sailed this morning under sealed orders.

### BRIEFS FROM BELOIT

College Field and Track Sports With Lawrence University—Death of an Old Resident.

Beloit, Wis., June 4—[Special]—Beloit won yesterday in the second annual field day of Beloit and Lawrence by a score of 56 to 45. While Beloit was painfully behind in field events she took everything on the track. The running was probably the finest seen in this region, and several records were equalled if not broken. The bicycle race though slow, had a magnificent finish. Burge was a surprise in the hammer throw, winning first with a throw of 93 feet, 10 inches. Biggs, Whitney and McCuskey did their usual fine work, not letting a single first place go to the opponents. In point of gaining Whitney led for Beloit with 111, Biggs next with 81, then McCuskey 7. For Lawrence, Grant was the best, winning 18, then Wescott 91, and White 8. The games were very even, the issue being in doubt until the next to the last event. Some of the citizens of Beloit sent Company E \$100 Thursday for a present.

Word was received here Thursday of the death of Mrs. L. A. Sanderson, of Scranton, Pa., for many years an esteemed resident of this city. Mrs. Sanderson was stricken with paralysis at Scranton, the home of her daughter, Miss Maud. She never recovered consciousness, and died Tuesday evening, May 31. Mrs. Sanderson was seventy-four years old. Her remains are deposited in a vault waiting interment in this city, as her son, Fred, is seriously ill at Denver with cerebrospinal meningitis and it is not safe to acquaint him with the sad news.

### REPORTS FROM THE CAMP

Mrs. Hanson Found the Janesville Soldiers Glad to See Her.

Mrs. Charles Hanson, wife of the captain of the local military company, writes local relatives and friends notifying them of her safe arrival in Jacksonville, Florida.

She says that the trip through the south was for many miles through a country that was barren and uninhabited, and that the region was everything but an inviting one. The days in Jacksonville, she says, are hot, but the evenings would be very comfortable, if it was not for the mosquitoes, which are very troublesome and numerous at night.

On her arrival at Jacksonville her baggage, containing presents from local friends to the boys of Co. A, had failed to arrive.

### THIS DAY WAS A SCORCHER

Warmest Day Of the Year Causes Much Discomfort to Citizens.

This was the hottest day of the year. At 3 o'clock in the afternoon the thermometer registered as high as 88 degrees in several portions of the city and the result was that the populace suffered much. The day being the first hot one of the year made the fact all the more noticeable. During the heated spell business in the stores was at a standstill. The street cars did a good business for the reason that few thought of walking.

### SENIOR HIGH SCHOOL PARTY

It Will Take Place at the Light Infantry Armory June 14.

The Senior class of the Janesville High school issued invitations today for their party to be given at the Light Infantry Armory on the evening of Tuesday, June 14.

The party this year will undoubtedly be a most pleasant affair, there being many expected from out of town. Smith's full orchestra has been engaged to furnish the inspiration for dancing, which will commence at 8:30 o'clock.

Any time this month, you know, the \$2.98 price for choice of any shoe in the house goes. Brown Bros.

### A PRODUCE FIRM FAILS

Assignment of the Milwaukee Commission Firm of Krull & Volger, This Morning.

Milwaukee Wis., June 4—[Special]—The firm of Krull & Volger, one of the oldest produce establishments in the city, made an assignment this morning. The liabilities are \$100,000, and the assets about three-fourths that amount. It affects the offices at Chicago, Milwaukee and Kansas City. Herman Segnitz is the assignee, with a bond of \$50,000.

### WEATHER FORECAST.

Chicago, June 4—[Special]—Forecast for Wisconsin:

Cooler tonight, showers Sunday.

### PAIRED HIS PREDECESSOR

Rev. Mr. Denison's Compliment to Rev. S. P. Wilder.

In its write-up of the recent exercises at Delavan at the installation of Rev. S. P. Wilder as pastor of the Congregational church, the Delavan Enterprise says: Among the pleasing features was the "Right Hand of Fellowship" given by Rev. R. C. Denison, who succeeded Mr. Wilder, at Janesville, where the latter served for nine years. The speaker very cordially welcomed him back to the convention and made very kindly references to his work at Janesville and the abundant fruits of it as he—the speaker—had found them. This point was emphasized by some twenty of the Janesville congregation being present.

### AS VIEWED IN SOUTH AFRICA

Public Opinion There Is Strongly In Favor of the United States.

Walter Houghton, the Janesville ex-police officer who is now residing in far away South Africa, writes an interesting letter to Alexander Buchanan, of this city, giving an idea of what South African residents think of the present American-Spanish war.

He says that he has talked with several prominent men in Cape Town, and that they all expressed the same opinion that the United States was fighting for a just cause. Several Spaniards residing in Cape Town and Johannesburg have already embarked for their native home to offer their services to the queen. Mr. Houghton says that any number of residents of Cape Town have called on the United States consul there and have offered their services to this country in case they are needed.

### DID A GOOD DAY'S BUSINESS

Street Car Company Thanks the Circus For Large Receipts.

The coming of the circus here on Memorial day proved a bonanza for the street car company, and the day's business was the largest in two years with the single exception of Woodmen's picnic day. The number of passengers carried was 4,107, and Capt. Cummins is highly elated over the day's receipts. The greater portion of the passengers carried were bound for the circus, although a large number of fares were rung up on the cemetery line both in the morning and afternoon.

### EDGERTON'S NEW EXCHANGE

Good Prospects That a New Telephone Exchange Will Soon Be Established.

Manager Slater, of the local telephone exchange, was called to Edgerton this week on business connected with the putting in of a new exchange in that city, which has had to be satisfied in the past with a toll line.

F. J. Skolicky, special agent of the Wisconsin Telephone Co., has been in Edgerton, looking over the field, and if thirty to forty subscribers can be secured, an exchange will be put in. The rate to subscribers will be \$1.50 for residence and \$2 per month for business houses.

## SHUTS THE SPANIARD IN

### Coal Transport Sunk In Santiago Harbor Channel.

### SCHLEY'S SCHEME TO PREVENT THE ESCAPE OF CERVERA

Washington, June 4—Special—The sinking of the American coaler Merrimac in the channel leading into Santiago bay is regarded here as a fine piece of strategy. Although the sensational press refer to it as a disaster it was really a matter of design upon Commodore Schley's part. The vessel is an old one, useless for fighting purposes, but capable of carrying a large quantity of coal. By sinking it in the narrow channel Schley has corked the bottle in which Cervera is confined. None of his ships can now emerge from Santiago until the Merrimac is raised, which will require weeks of work and the use of a large quantities of dynamite. The prediction is again made by naval officers that Cervera's fleet will never emerge from Santiago harbor except as captive vessels or in the form of scrap iron and kindling wood.

Washington, June 4—Special—Further details of the Merrimac have been received. When the heroic crew saw they could not reach the American vessel's after their ship had sunk, they rowed to the harbor and were picked up by the Spanish flagship.

### Conflicting Reports.

Washington, June 4—Special—No news was received from Santiago by the navy department this morning. Little credence, however, is placed in the report that the Spanish fleet was destroyed. The only explanation department officials make for the blowing up of the Merrimac is that she was deliberately sent into the mouth of the harbor with the expectation that she would be sunk and thus effectually cut off all avenues of escape for the Spaniards by blocking the harbor. Unofficial reports say it is not known whether she was sunk by her own crew or by the Spaniards. Some dispatches say all on board escaped, while others say it is not known positively that there were no casualties.

### The Spanish Version.

Madrid, June 4—Special—The official announcement is made that an American cruiser, approaching too close to the shore, has been sunk by the batteries at Santiago.

Madrid, June 4—Special—Spanish official report of yesterday's engagement at Santiago contains the following: "An armed transatlantic liner and cruiser attempted to force an entrance into the harbor. The liner was either sunk by the fire of the batteries or a torpedo. Admiral Cervera personally saved an American officer from drowning, which proves the closeness of the engagement."

It is believed here that besides the vessel sunk at the mouth of Santiago harbor the Spanish batteries seriously damaged two American iron clads. The affair is described as a brilliant Spanish victory.

### Troops on Board Ships.

Mobile, Ala., June 4—Special—By tomorrow this city and Tampa will be practically deserted by troops. Nearly all the soldiers here are now on board transports, and will start for Santiago or Porto Rico within a few hours. An ominous silence is maintained by those in command. It is believed they have received final orders, but this they refuse to affirm or deny. It is certain that if they have not received they expect them in the course of a few hours. The men are all in good spirits and eager for a fight with the Spaniards.

### Ended a Long Voyage.

Key West, June 4—Special—The gunboat Marietta arrived here this morning, thus ending her long trip around the Horn from San Francisco.

The trip was uneventful. She would have been in Key West the same time as the Oregon but for the fact that she was left behind to convoy the Nictheroy, which had trouble with her machinery.

### A Cheering Bulletin.

New York, June 4—Special—The Tribune posts a bulletin dated Cape Haytian which says the report is prevalent there that the Americans destroyed the Spanish fleet at Santiago yesterday. The report is unconfirmed.

PULPIT THEMES  
IN LOCAL CHURCHES

CLERGY OFFER ATTRACTIONS  
FOR WARM WEATHER.

Discourses Upon Topics That Will  
Instruct and Interest—Afternoon  
Exercises at the Y. M. C. A.—  
Sermons Will Be Abreast of the  
Times.

Although the weather has become  
unduly warm, all of the local churches  
are well ventilated, and are, perhaps,  
the coolest places to be found in the  
city on a warm day. Those who are  
in search of comfort, therefore, need  
not rush through the broiling sun to  
some shady grove miles away from  
town. They can get the shade, the  
cooling breeze, and a comfortable  
seat besides in any of the local houses  
of worship, and likewise listen to dis-  
courses that are both entertaining and  
instructive, returning to their homes  
rested and refreshed rather than fat-  
igued and dusty from a journey to  
plein grounds.

The following are the announce-  
ments for tomorrow's services:

FRENCH SUMMER CASHMERE GOWN FROM HARPER'S BAZAR

A special feature of an imported  
gown in creamy-tan cashmere is the  
fashionable flare of the close-fitting  
skirt about the foot, which is pro-  
duced by an outward spring of the  
gores at each seam below the knee.  
The fullness at the back is arranged in  
a double box-pleat, very narrow at the  
top. The width of the skirt at the  
hem when pleated is three and a quar-  
ter yards. Such a shaped skirt is  
lined throughout instead of being  
made over a separate foundation, and  
is usually untrimmed, although this  
model has sometimes narrow ruffles  
inserted in the two front seams, pass-  
ing down their entire length.

The pointed Eton jacket, which em-  
bodies the new idea in garniture,  
reaches just a little above the waist.

Approximate quantity of material  
for gowns—cashmere, 6 yards; black  
satin, 1 yard; taffeta, 1 1/2 yards.

BRANCHING OUT IN BUSINESS

A. W. Wheelock, a former Janesville  
Man, Opens a Store in Des Moines.

A. W. Wheelock, of Rockford, a former  
Janesville boy, and the son of  
Mrs. W. G. Wheelock, of this city, is  
branching out in the business world,  
having made the purchase of the large  
crockery store of A. Anderson at Des  
Moines, Ia., one of the established en-  
terprises of the city, and will take  
possession about June 15. The store is  
one of only two crockery stores in  
the city, and is centrally located. Mr.  
Wheelock has no intention of aban-  
doning his business in Rockford.

WAR PARABLES ONCE MORE

Rev. Mr. Hall Continues His Series of  
Discourses

Many words of warmest apprecia-  
tion, warrant the continuation of the  
war parables. Accordingly Mr. Hall  
will continue them, speaking on this  
truly timely theme tomorrow evening.  
The cost of war, the difficulties at  
Santiago, the various types of ves-  
sels in our navy will all be used to  
illustrate high truth. Life of Christ  
series in the morning.

ALL THE NEWS OF  
THE BADGER STATE

WEST SUPERIOR WORKS  
STRUCK BY LIGHTNING.

Total Destruction of the Manufactory,  
Involving a Loss of \$200,000, On  
Which There Is Little Insurance—  
Farmer Killed Near Watertown—  
Pensions Granted.

West Superior, June 4—The plant  
of the Webster Manufacturing com-  
pany was burned to the ground early  
this morning, the building being struck  
by lightning about 12 o'clock. It is  
situated at the south end, and some  
time elapsed before the fire depart-  
ment reached the scene, the entire  
building being in flames by the time  
they arrived.

Streams were thrown by all of the  
chemical engines in the city, but they  
seemed to have no effect, the flames  
being fed by seasoned timber, benzine  
and turpentine, with which the build-  
ings were filled. The plant has been  
running at full capacity for the past  
six months and furnished employment  
to about 200 men. The loss is esti-  
mated at about \$200,000, which is  
partly covered by insurance.

THROWN FROM HIS WAGON

Peter McFarland, a Jefferson County  
Farmer, Meets Sudden Death

Watertown, Wis., June 4—Peter  
McFarland, of the town of Emmet,  
was almost instantly killed yesterday  
morning. He was about to start for  
this city when his team turned sud-  
denly throwing him from the wagon.  
He struck on his head with great  
force and the wagon load passed over  
his body. He was 57 years old and is  
survived by his wife and several chil-  
dren.

## PLAN TWO DECISIVE BLOWS.

Policy of the Government is Changed.

## PORTO RICO WILL BE TAKEN.

Active Preparations Are Being Made to Send an Army to That Place—Admiral Cervera Given Ten Days to Surrender or Fight.

Washington, June 4.—Santiago, then Porto Rico, is now said to be the war program.

Active preparations are being made in the war department for sending an army to Porto Rico. Troops are being ordered from Chickamauga and other southern points of mobilization to Jacksonville, from which place it is now the purpose of the administration to embark the army designed for Porto Rico.

During the last three weeks the entire plans of the government as to the policy to be pursued have been materially changed. At first there was no other thought in the minds of the president and his cabinet than the first movement of the army should be an invasion of Cuba for an attack on Havana.

Now, however, at the earnest solicitation of Secretary Day, Gen. Miles and other leading advisers of the president, it has been decided the best policy of the United States would be to first dispose of the Spanish fleet now in the harbor of Santiago de Cuba and immediately after wrest Porto Rico from the hands of the Spanish government.

Going on this plan, an army has already been embarked for Santiago de Cuba, and the fleets of the United States will be mobilized at the entrance of the harbor.

It is confidently expected that within the next ten days the Spanish fleet under Cervera will have either been destroyed or forced to surrender to the combined forces of the United States.

As soon as news has been received in Washington of such a victory orders will be sent to Gen. Lee, commanding the Seventh army corps at Jacksonville, to embark at least 20,000 men for duty in Porto Rico.

The powerful fleet under the command of Admiral Sampson and Commodore Schley will proceed from Santiago to San Juan, and by a fierce cannonading demolish the fortifications of that place. Gen. Lee and his well-equipped army will then effect a landing, and will give battle to the 12,000 Spanish troops now in Porto Rico.

An army of occupation, consisting of about 4,000 men, will undoubtedly be left to hold the city of Santiago de Cuba. It is thought by the officials of the army that this force will be sufficiently large, with the co-operation of the insurgents under Gen. Garcia, to repel any Spanish attack that might be made.

The remainder of the 12,000 men that are to be sent to Santiago de Cuba will be re-embarked as soon as Admiral Cervera's fleet has been disposed of, and will join the army in Porto Rico.

By following this plan it is hoped by the president it will be unnecessary to send the large army of invasion into Cuba and expose the troops to the many diseases that are so easily contracted by unacclimated men doing duty in that island. It is hoped that the Madrid government, upon being dealt two such decisive blows near the United States, will surrender.

## Swedish Lutheran Synod.

Galesburg, Ill., June 4.—At Friday's session of the Augustana Swedish Lutheran synod Dr. Sward, the president, made his annual report, showing that in the synod there are now 187,814 members, representing 847 churches. Within the last year 20,000 children have been baptized and 5,000 have been confirmed. Eighty-two churches have been dedicated this year. In the colleges and academies 11,000 students are catalogued. In the report on Augustana college the institution was shown to have an enrollment of 560 students and to be in good condition.

## Hawaii to Be Ours.

Washington, June 4.—The revenue bill is now practically out of the way and is no longer blocking the way of the Newlands resolution for the annexation of Hawaii. That resolution will be taken up in the house early next week, and Chairman Hitt does not anticipate a long debate. Judging the opposition by the efforts of the opponents in the committee on foreign affairs, they will not be able to make a protracted fight by argument.

Paul Grottkau is at Rest. Milwaukee, Wis., June 4.—Paul Grottkau, the socialist leader, agitator, and editor, died Friday evening of an attack of pneumonia. He had just returned from a visit to Buffalo, Cleveland, and Detroit in the interests of the Social Democracy, when the disease overtook him last Monday.

Chamberlain's Pain Balm has no equal as a household liniment. It is the best remedy known for rheumatism, lame back, neuralgia; while for sprains, cuts, bruises, burns, scalds and sore throat, it is invaluable. Werts & Pike, Merchants, Fernandina, Fla., writes: "Everyone who buys a bottle of Chamberlain's Remedies comes back and says it is the best medicine he has ever used." 25 and 50 cents per bottle by People's Drug Co., Corner Main and Milwaukee streets.

## TO EMBARK TUESDAY.

Colorado and Pennsylvania Regiments Receive Orders.

San Francisco, June 4.—After taps had been sounded at Camp Merritt last night Major General Otis issued an order directing the First Colorado and the Tenth Pennsylvania volunteers to embark on transports for the Philippines next Tuesdays. The news reached the encampment about midnight, and was received with manifestations of the greatest delight by the men chosen for the second Manila expedition. The Colorado regiment is 1,008 strong and there are 840 men from the keystone state. The order of General Otis read simply that the colonels of the regiments should take their commands on board ship Tuesday, with 400 rounds of ammunition to each man and six months' rations. More definite instructions will be published in a day or so.

No statement was made of when the ships would leave the harbor. It is not expected, however, that the transports will sail before Thursday.

During the summer of 1891, Mr. Chas. P. Johnson, a well known attorney of Louisville, Ky., had a very severe attack of summer complaint. Quite a number of different remedies were tried, but failed to afford any relief. A friend who knew what was needed procured him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy which quickly cured him and he thinks saved his life. He says there has not been a day since that time that he has not had this remedy in his household. He speaks of it in the highest praise and takes much pleasure in recommending it whenever an opportunity is offered. For sale by People's Drug Co., corner Main and Milwaukee streets.

Blanco Is Finally Cut Off.

New York, June 4.—A dispatch to the World from Kingston, Jamaica, says the cable from Santiago de Cuba to Jamaica has been cut. This, the dispatch says, severs Blanco's last remaining communication with Madrid, and he is now thoroughly isolated. The cable was doubtless cut by the ships under Commodore Schley.

LA FOLLETTE, HOARD, BAUMGARTNER & CO.

One Baumgartner, a member of the La Follette machine in Milwaukee, was beaten at the primaries by a very decisive vote for the republican nomination for mayor. At once his friends, who are all members of the La Follette machine, made open proclamation that the republican nominee would be defeated. This proved to be true and David S. Rose, a free-silver, free-trade democrat was elected by a majority which showed conclusively that the La Follette machine men had bolted the republican ticket. In the flush of their treacherous victory they boasted of what they proposed to do in the future, not only in Milwaukee but throughout the State of Wisconsin. The disposition of the La Follette machine men to bolt has been in evidence repeatedly but generally it has been under cover. The success of their treachery in Milwaukee has now led one of the prominent members of the La Follette machine to declare publicly in favor of a coalition between the La Follette machine republicans and the silver democrats for the purpose of electing La Follette machine men to the legislature. The member referred to is ex-Governor William D. Hoard, and he boldly declares himself in a late number of his paper, the Jefferson County Union; and he does it in these unmistakable words:

"The Union would suggest that republicans and democrats alike attend their town and city caucuses en masse, select delegates who will go to the assembly conventions to nominate members of the legislature who are well known to their opposition to gang politics."

This undisguised threat is copied approvingly by "The State," the La Follette machine organ at Madison in its issue of May 27. Of course everything is "gang" politics which does not support the La Follette machine. The republican party in Wisconsin is now advised of the purposes of these men. They are determined to rule or ruin. They pretend to be opposed to some other machine and by filling the air with din hope to ride into power themselves under false pretenses.

The members of the La Follette machine are all disgruntled office-seekers who have been beaten in nominating conventions and at the polls. Baumgartner, Hoard, Daugen, La Follette, and the whole line of them are men whose demands have been rejected by the people. Not one of them urges the selection of any man for an office who is not a member of the La Follette machine. The entire outfit has been clamoring for individual recognition under McKinley's administration as well as bonding every energy to secure the selection of themselves in state and local affairs. The words of Mr. Hoard in his newspaper are more than a threat; they express the determination of the La Follette machine to bolt the action of any convention which does not place their men in nomination. Beyond question this declaration was studiously and carefully made and after full conference between the leaders of the La Follette machine. The republican party now knows what to expect from these men and will govern itself accordingly. Let them go into the free silver, free trade camp at once and not wait to bolt hereafter.

SPIKES MR. HALL'S GUNS.

The Elkhorn Independent says: "The State Journal has shown Assemblyman Hall that his 'libel' on Governor Scofield is not allowed to pass. Mr. Hall said that Governor Scofield brought his cow from Oconto, by express, on a frank, and the Journal promptly printed a receipt from the agent to the company to E. Scofield for \$10 express charges."

"This most effectually spikes Mr. Hall's guns, but what if the governor had received the transportation of this cow, as a present, even? We can see nothing objectionable in it. This idea that a man like Edward Scofield could be bought by a \$10 present from a rich corporation, could originate only in the mind of a mighty small, one idea man. Gov. Scofield cannot be bought for ten dollars, and Assemblyman Hall knows it as well as Mr. La Follette and every other man with an ounce of brains, and all of this talk is 'much ado about nothing.' It may be that it is intended to catch some votes, but the voters it would catch would be no credit and might little help to any candidate. All such charges, though true, are too insignificant and silly for any earthly use. And unless Mr. Hall can tree larger game than his Jersey cow story he will do well to quietly subside."

Janesville people should be proud of the Imperial band. To win the prize at the big Woodmen's picnic where dozens of bands competed, is certainly a high honor, as bands from Shirland, Cresport, Dubuque, Elroy, Madison, Beloit, Seales Mound, Monroe, De Kalb, Faldale, Spessmore, Genoa, Leaf River, Evansville, Caladonia and Rockford took part.

A Bazine lawyer, who found a live lizard imbedded in a plug of tobacco has quit "chewing." Many men have quit using liquid fire after seeing the reptiles but this is the first case on record where the common plug of commerce has had developed those saving qualities.

A Bessemer, Mich., man bet that he could drink a quart of whiskey. He won the bet, and the victory will be duly celebrated tomorrow. Friends "will kindly omit flowers."

Commodore Schley must be forgiven. In all probability Admiral Cervera neglected to put out the sign "Glass, Handle With Care" before he sailed into the battle.

Men who started the yarn of the bovine. Now say that they have not yet alone. The express company's receipt. For the charges, complaint—Although "kicked," they can't help being mine.

HAMLET OF THE JUNIORS

A Very Creditable Performance At the Opera House Last Evening.

The Opera house has never been crowded as it was last evening when the Junior class of the high school presented Shakespeare's immortal tragedy of "Hamlet." It was an ambitious undertaking. The best actors of the world have sought to present it acceptably, but have failed to come up to the author's ideal as conceived by the critics. Edwin Booth, perhaps the best Hamlet who ever essayed the role, tried it early in life but failed, and for five years studied it assiduously before he finally reached the degree of perfection that satisfied him. McCullough would seldom play it. He declared it was beyond his capacity. Edwin Forrest could never comprehend it, and in the later years of his life let it alone.

When so many eminent actors have failed it could not be expected that a class of young men and women in Janesville should succeed in presenting the tragedy with entire success at the first undertaking. The performance last night had its crudities and imperfections, but these were surprisingly few and inconsequential. The costuming of the actors was certainly all that could be desired, for it was not only rich but historically accurate.

All the participants were well up in their parts, and the work of the prompter was a success. There was little of the embarrassment common to novices to be observed, and the lines of the play came "trippingly from the tongue." If any general criticism were to be made it might be said that the action of the majority was too studied, lacking somewhat in naturalness, a fault that is certainly not very grave.

There was an evenness about the performance that in a manner obscured some of its imperfections. None of the actors were pre-eminently good; none of them were bad, but far from it. In fact many professional companies that have essayed the drama have come much farther from giving it a proper rendition. The Hamlet of Levi Ross, the Ophelia of Miss Emma Rowe, the Laertes of Ray Owen, the Polonius of Charles Woodstock and the Horatio of Henry Carpenter are especially deserving of mention and commendation. Those who sustained the minor roles were interesting in that their acting betokened a careful study of the drama and an excellent appreciation of dramatic utility.

As a whole, without entering into particularization, which would be invidious under the circumstances, the performance must be pronounced a creditable one, though mayhap too ambitious for people so young and unaccustomed to the stage. The juniors have aimed high. If they have not quite hit the mark—an achievement in which the most eminent have failed—they have certainly shown their capacity for achievements far greater than those of the average high school pupils.

BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

Chicago had its best pitcher, Griffith, in the box yesterday and still lost. Inability to hit Yeager when hits meant runs was the trouble. Philadelphia, Baltimore and Cincinnati all lost. The Boston-Cleveland game was postponed on account of rain. Scores:

EFFECT OF THE WAR.

Dun Reviews the Situation for May with Hopeful Results—Crops.

New York, June 4.—R. G. Dun & Co.'s Weekly Review of Trade says: "May having been the first full month of actual war, the fact that failures in that month were smaller, even though but little, than in the corresponding month last year, and nearly 10 per cent smaller than in May, 1896, is somewhat encouraging, the more because a year ago the remarkable decrease in May gave proof of the heavy improvement in business which made the year so gratifying in general results. Large failures were eight in manufacturing for \$2,385,000 this year, against thirteen for \$2,985,000 last year; and in trading five for \$690,000, against ten for \$1,576,977 in 1897. Hesitation in extending usual credits soon after war began naturally affected weak more than strong concerns, but it soon gave place to steady and increasing confidence."

"Wheat dropped 74 c from the highest point after the May deal culminated, and has since been weaker for July, because of accounts promising an enormous yield. Those who were nearest the truth last year now predict about 700,000,000 bushels for 1898, and all accounts make acreage much larger and conditions much better than a year ago. But with \$1.15 still paid for No. 2 red in elevator and a foreign demand taking 4,294,495 bushels, flour included, from Atlantic ports for the week against 2,165,787 last year and 385,439 from Pacific ports, against 74,929 last year, the decline evidently hastens the marketing of surplus and gives the new crop a better chance. It is not in history exports of each grain have the week were 4,263,520 bushels, against 2,090,795 last year, although the crop has been by some supposed almost exhausted, and corn receipts were also 7,076,491 bushels, against 6,116,523 last year. Exports of corn for the week have been 4,881,820 bushels, against 1,926,566 last year, and for the first time less surprising that western receipts for about reached 200,000,000 bushels in the same year."

To Test a New Gun.

New York, June 4.—The navy department will make an exhaustive test this week at the Indian Head proving grounds of an automatic one-pounder rifle said to be capable of firing 180 shots a minute. The tremendous advantage to be gained by such a weapon may be appreciated when it is said that the best gun now in naval service capable of throwing one-pound projectiles are operated with well-drilled crews at a speed never exceeding fifteen to twenty shots a minute, and at that rate for a very brief period.

House Adjourns to Monday.

Washington, June 4.—In the house Friday Mr. Dingley stated that the war revenue bill would not reach the house before next Monday. In view of that fact he moved that when the house adjourns it will be until Monday. This was agreed to. Private pension bills on the calendar of unfinished business, and like bills on the speaker's table with senate amendments, were taken up and disposed of.

## MANY RUMORS FLY ABOUT THE CAMP

SOLDIERS DO NOT KNOW WHAT TO EXPECT.

An Order to Move Will Be Gladly Received, As the Men Are Anxious to Have a Change—The Badger Boys Still At the Head.

Camp Springfield, Fla., June 4.—As in Camp Harvey, rumors and counter rumors are filling the air of movements of troops that shall include the First Wisconsin and Second Illinois. By the time this shall be put in print we may be far away from here. But not a man in the company cares to stay in this sort of life longer than necessary, and any movement will be gladly welcomed.

Wisconsin troops will continue to draw the crowds at parades. And the cordiality of the town people grows, if possible, with a closer acquaintance.

Citizens are still refused admittance to the camps, save as guests of officers. But a mushroom growth of stands and restaurants have sprung up all around the outside and at night the surrounding streets have a decidedly "midway" appearance. Exorbitant charges have been severely frowned down upon by town people and the mayor of Jacksonville has even issued a proclamation against such practices. The boys haven't much money to spend, but it is a good thing not to be robbed of that little.

Private B. Halverson has been appointed from this company to act on hospital corps. It is a similar position to that held by Private Will May.

Private Williams is an adept at tattooing and many of the boys are having their company and regiment and other things inscribed on their arms.

Muster was one of the day's duties and consequently, for the first time here, the freedom of the men was curtailed and they were not allowed outside the line.

An activity pervades the quartermaster's department that bodes well for prompt future movements. Regulations for canvas or duck uniforms and other equipments have been asked for and sent in.

Mrs. Capt. Hanson arrived in camp yesterday. Her reception was far from pleasant as the rains had come and the winds had blown and were still at it when she came. The captain's tent was a wet, soggy wreck and anything but an inviting place. But the boys made up for the forlorn appearance of the grounds by their welcome. She came loaded with parcels and boxes for the boys. And home was brought close to us by their contents.

A large delegation went to Pueblo Beach and came home pleased with the surf bathing.

Capt. Hanson is tomorrow officer of the day. He acted as major of our battalion tonight. His first appearance mounted was an entire success.

Corporals Nott and Supersman went fishing the other day and had water and oysters for supper.

Artillery Schmitt is being kept busy. Private Hammond has been detailed as assistant cook.

Private Hand has developed a talent for making lemonade and has been appointed official mixer for Colonel Bay Smith's tent.

Every man in one tent, seven of them, have had a close hair cut and it is truly a "bald headed row."

A report is in circulation that Private May has been appointed a ward keeper at the general hospital.

The funeral of the late Mrs. Jane Milford, will be held from her late home, 153 Holmes street on Monday afternoon at 2:30 o'clock.

## 30 BOXES OF GOLD

Easy Money For Pin Money

To secure some desired information direct from the people, it is proposed to send a trim little box containing 5 gold dollars to each of 30 persons who write the most interesting description of their experience and observation on the following topics:

How have you been affected by coffee drinking?

Do you know any one who has been driven away from Postum because it came to the table weak and characterless at the first trial?

Did you see such a person right regarding the easy way to make Postum clear, black and with a crisp, pungent taste?

Have you ever discovered a better way to make it than to note the clock at the time actual boiling commences, (not when it is first put on stove) and keep it boiling moderately for full 15 minutes, using 2 heaping teaspoonfuls for each cup of beverage?

Give names and address of those you know to have been cured or helped in health by the dismissal of coffee and the daily use of the Food Coffee in its place.

Address your letter to the Postum Cereal Co., Ltd., Battle Creek, Mich., writing your own name and address clearly.

Decision will be made and the 30 little boxes of gold sent out on June 30, next.

Every friend of Postum is urged to write and each letter will be held in high esteem by the company, as an evidence of such friendship, while the little boxes of gold will reach many a modest writer whose plain and assailable letter contains the facts desired, although the sender may have but small faith in winning at the time of writing.

It takes three hours for Chicago evening papers to get to Janesville. It takes less than one second for the telegraph to cover that distance. The Janesville Gazette receives full press association dispatches, and the news to three hours later than that of Chicago and Milwaukee, evening papers sold in this part of the state.

## R. L. BROWN JAILED ON FORGERY CHARGE

LOCAL VETERINARY SURGEON IN TROUBLE.

John Haight Says He Forged His Name For \$400—Brown Says That He Needed the Money—The Affair Has Caused a Surprise in Janesville.

Robert L. Brown, the well known veterinary surgeon, was arrested this noon by Under Sheriff Wallace Coulman and placed in jail on a warrant sworn out by John Haight, of Johnson, charging the defendant with forgery to the extent of \$400.

Brown, when arrested, was not in the least surprised, and there is little doubt but he had been expecting just such a move during the past few days. The warrant charges him with the forgery on May 25, the paper given Haight bearing the names of R. L. Brown and William Duthie.

Admits the Guilt

After securing Haight's check for \$400 Brown drove to the city and cashed the same at one of the local banks. As to the guilt of the prisoner there seems to be but little doubt, for he himself practically admitted to Haight that he had forged his name, but that he was obliged to do it for the want of money, and that he expected some day to make the matter right. Other Rock county farmers who were in the city today were very much interested in the arrest, and it is said that when the facts are known it will be found that the forgeries will foot up a goodly sum. Just why such an act should be committed by Brown is a mystery that even his closest friends seem at present unable to solve.

Had a Promising Career.

A few years ago he entered the office of Dr. E. D. Roberts, in this city, for the purpose of fitting himself for the profession. He was quick to learn, and it was not long before he was ready to enter a veterinary college in Chicago. From the Chicago Veterinary College he graduated with high honors two years ago, and at once returned to Janesville and opened up an office on Court street, where he now has his headquarters. During the many years that he has resided in Rock county he has made a host of friends, who will regret much his fall.

Held in Jail

At 3 o'clock this afternoon the unfortunate man was brought into the municipal court for a hearing. He immediately waived examination, and his trial was set for June 9 at 10 o'clock. Bail was fixed in the sum of \$1,000, but up to a late hour the prisoner had failed to secure bondsmen.

## COMES BACK TO BELOIT

Return of Prof. Eaton and Wife from a Prolonged Foreign Tour

Beloit, Wis., June 4.—President and Mrs. E. D. Eaton returned from Europe last evening and were given a hearty welcome by a great crowd of students and citizens who gathered at the station and gave the college yell while the college bells were rung.

President Eaton made this trip as commissioner of the American board to examine and report on the condition of some of the Chinese missions, particularly those of North China. He and Mrs. Eaton sailed from Vancouver on January 31, and landed in Canton after touching at Shanghai and sailing down the coast. Here he made several trips to the missions in South China and then returned to Shanghai by water. At Shanghai Colonel Hopkins and his wife joined them, and while Mrs. Eaton crossed over to visit Japan, the commission proceeded to Peking, Cheung and the North China missions and did the real business of the trip. After this, President Eaton joined his wife in Japan, and after staying there for a short time sailed for the United States.

They Resented an Insult

Janesville Boys at Rockford Punished Several Rowdies.

In speaking of the numerous fights in Rockford on Woodmen day the Rockford Register-Gazette says:

There was a beautiful fight near Harlem park yesterday afternoon, in which two Janesville young fellows came out victors. The Bow City boys were at the park with their lady friends spending a quiet afternoon, when two ruffians came along and dropped an insulting remark. The liveliest kind of a scarp followed, in which the faces of the ruffians were so badly poured that they were hardly recognizable. The Janesville lads are to be congratulated on the good work they did with their fists.

## EASY LIFE ON SHIPBOARD

Lieut. Green is Enjoying Life on the Steamer Alliance

Lieut. F. E. Green, of this city, who is aboard the United States ship Alliance, writes home that his ship of late has been stationed off the coast of Virginia. The weather, he says, has been very hot during the day, but at night all is comfortable and the sailors have but little trouble in sleeping. Since the breaking out of the war telegrams are frequently received aboard his ship from headquarters in Washington, and a recent instance is recorded where three were received in quick rotation each countermanding the other. He reports all as being well.

## PRaise for Beloit Band

Rockford Papers Make a Compliment Upon Line City Players

According to late accounts in the Rockford papers it appears that the Imperial band of this city had no walk-away in securing first prize at the Modern Woodmen picnic. The Rockford Register-Gazette in a recent article says: "The Beloit band comprises twenty two men under the leadership of Charles Munson, a former Rockford boy. They play finely, are handsomely uniformed and many people who saw the parade believed that they were fairly entitled to first prize. Not only have they a first class band but a crackerjack of a drum major who attracted much attention."

## BALL GAME THIS AFTERNOON

Belvidere and Janesville Teams Contest For Honors on the Field

A fair sized delegation for Janesville to turn out to a ball game braved the heat of the afternoon and spent the day at Athletic Park, where they had the pleasure of witnessing a contest between the Belvidere and the Janesville High school teams.

Last Monday the home team defeated the Belvidere boys by a score of 14 to 13 and up to the time of going to press there was a good game in progress.

## WATERTOWN GETS CONTRACT

Kunert Company Will Erect the Town of Bradford Bridge.

Thirteen bridge contractors from different portions of the country submitted bids at the court house this afternoon for the building of a 100 foot span iron bridge to cross Turtle creek in the town of Bradford. After some lively bidding the contract was let to E. Kunert, of Watertown, Wis. his bid being \$1,850. The bridge will be completed this summer.

## LOCAL HORSE SHOERS PRIZED

Fancy Equines Are Brought Here When a Good Job Is Wanted.

It appears that Beloit horse shoers are not up in their business when it comes to doing an extra fine job. J. G. Houston, the well known shoeman and furniture man of Beloit, sent a pair of thoroughbred horses here today to E. C. Lloyd's shop to be shod, prior to their shipment to Denver. This is not the first pair of fine horses that Beloit has sent to Janesville to be shod.

## M'LELLAN SALOON TO CLOSE AT LAST

COURT SETTLES THE MATTER THIS AFTERNOON.

Attorneys For the City and the Saloon-keeper Heard—The Writ of Certiorari is Quashed On the Motion Of City Attorney F. C. Burpee.

The front door of Alexander McLeLlan's South River Street saloon was closed and bolted this afternoon, and no more liquor is liable to be sold from there for some time to come. Mayor Thoroughgood and the common council of the City of Janesville are at present masters of the situation, and they expect to hold the fort unless unexpectedly surprised by the enemy.

A Duel of Wits.

This sudden turn of affairs was the result of a legal battle that was fought in the Rock County circuit court chamber this morning.

The matter for closing of the McLeLlan saloon came on to be heard on the writ of certiorari error issued June 1, with Attorney W. G. Wheeler present in behalf of the defendants, and City Attorney F. C. Burpee at the helm in behalf of the plaintiff. The writ called for the certifying on the part of the defendants, of all records and proceedings pertaining to the revocation of the McLeLlan license.

The court, after hearing the case, found that all the late proceedings of the council were regular and legal, and ordered the writ quashed setting aside the stay of proceedings.

The action was then dismissed with costs to be taxed.

Battles the Matter.

The action of the court today means "victory for the city that is liable to be binding for some time to come. In other words McLeLlan's saloon will remain closed unless Attorney Wheeler can again get the Rock county court to reconsider the matter, which is not likely.

The McLeLlan appeal to the supreme court in the matter of the order of injunction is still hanging fire.

At 4 o'clock this afternoon the doors of McLeLlan's saloon swung open as a "temperance place." A sign on the wall says that no intoxicating liquors are sold, but that soft drinks, and cigars are to be had in wholesale lots if desired. So McLeLlan's place is open after all.

Another Saturday Night Sale.

## THE PRESIDENT IS HOPEFUL.

Confident That Spain Must Soon Sue for Peace.

## GEN. BLANCO IS POWERLESS.

No Reinforcement or Supplies Can Possibly Reach Him—Rumor That Overtures for Peace Have Already Been Made Indirectly.

Washington, June 4.—At the white house and the department of state they are anticipating overtures for peace, and are already discussing how they should be met. There is reason to believe the administration now has under consideration the terms upon which a treaty of peace with Spain will be considered. It is believed intimations on the subject came through one of the European powers. So far as outlined, the position taken is that a permanent harbor will be retained in the Philippine Islands, while Porto Rico will be accepted as full indemnity for the cost of the war and in settlement of all claims by citizens of the United States for damages growing out of the Cuban insurrection. The government will also insist upon occupying Cuba until a stable and independent government is established on that island. No consideration has yet been given to the final disposition of the Philippine Islands. The administration is at present willing to accept a permanent harbor as the share of the United States. It remains to be decided whether the islands will be turned over to a European nation or allotted among the great powers. There is a decided sentiment in official circles against permitting the Philippines to revert to Spain. It is urged that the Spanish flag, when driven from the islands, must not be permitted to return.

Blanco is helpless and can only make a hopeless defense at an enormous sacrifice of life. It is impossible for relief or re-enforcements to reach him.

Cervera, with the best ships in the Spanish navy, is in a trap from which he cannot escape, and he must either commit suicide or starve or surrender.

The president has absolute knowledge, received through reliable diplomatic channels, that the remainder of the Spanish fleet at Cadiz is practically useless because of the lack of coal and ammunition, and if it leaves home waters the entire coast of Spain will be defenseless. The financial resources of the government are exhausted and cannot be replenished either by loans or taxation, while the run upon the Bank of Spain is certain to compel that institution to suspend payment if continued much longer. The people of the kingdom have been deluded by false reports and misrepresentations that cannot be sustained more than a few days, and the only salvation of the present dynasty is to make terms of peace before the truth is discovered.

It is confidently believed that the capture of Porto Rico or the destruction of Cervera's ships will end the war, and the powers that are friendly to Spain are only awaiting such a blow to offer intervention that will be accepted.

## SENATE AGREES TO IT.

Passes the Wolcott Amendment for Coinage of Silver.

Washington, June 4.—A vote was reached in the senate Friday on the last of the finance committee amendments to the war revenue bill, and the democratic-populist provision for the issue of \$150,000,000 of greenbacks, and the coinage of the silver seigniorage in the treasury, was displaced by the amendment of the republican minority for an issue of \$300,000,000 of 3 per cent bonds and \$100,000,000 of certificates of indebtedness. A modified form of the seigniorage proposition was also adopted, on motion of Mr. Wolcott, by a vote of 48 to 21. It now provides for the coinage of the seigniorage at the rate of \$4,000,000 per month, until \$42,000,000 is coined.

The vote on Mr. Wolcott's amendment for the coinage of the silver bullion in the treasury as a substitute for the amendment of the majority of the finance committee was agreed to—yeas, 48; nays, 31.

Mr. Aldrich moved to substitute for the amendment of the finance committee striking out sections 27 and 28 of the house bill (providing for the issue of \$500,000,000 of bonds and treasury certificates, not exceeding \$100,000,000), the amendment of the minority of the committee, providing for an issue of \$100,000,000 of 3 per cent certificates of indebtedness, to be offered at popular subscriptions, and of \$300,000,000 of 3 per cent bonds. This was agreed to—yeas, 45; nays, 31.

Senate then went into executive session, and at 6:15 p. m. adjourned till Saturday at 11 o'clock.

## Once Tried, Always Used.

If we sell one bottle of Chamberlain's Cough Remedy, we seldom fail to sell the same person more, when it is again needed. Indeed, it has become the family medicine of this town for coughs and colds and we recommend it because of its established merits. J. E. Harrell, Prop. Oakland Pharmacy, Oakland, Md. ## Milwaukee Carnival Week.

Carnival week at Milwaukee, June 27 to July 3, will rival the Mardi Gras at New Orleans. Those having the celebration in charge believe that the Wisconsin festivities will even be more attractive than those of the far famed southern city. At New Orleans there are only three evening attractions. At Milwaukee there will be six days and six nights of endless festivities. The grand pageant, illustrating the history of Wisconsin, will consist of twenty floats. These floats are rapidly nearing completion and are said by the contractor, who has devoted his whole life to this business, to be the finest he has ever yet constructed. Low fares on all roads and boats will be given for Carnival week.

The human machine starts but once and stops but once. You can keep it going longest and most regularly by using DeWitt's Little Early Riser, the famous little pills for constipation and all stomach and liver troubles. Peoples' Drug Store.
